10th September 2007

Dear Mr Green

Firstly can I express my thanks for the recent work you have carried out for me.

We are receiving many complements on our new website that you designed and facilitated for us. I wanted to tell you that you certainly made the whole process not only cost effective but also simple to arrange with your professional advice.

We are confident now that in the future we can have you on hand to assist us with our website, computer hardware and software. We will certainly be recommending you to all our business associates.

Your sincerely

Laura Bright
